Anirudh Sarma Kolluru

kollurua@purdue.edu | 925-302-3298 | linkedin.com/in/anirudh-kolluru | web.ics.purdue.edu/~kollurua

Education

Purdue University ~ West Lafayette, IN — Minor Business Economics
B.S Mechanical Engineering ~ 3.61 GPA — Aug 2023 – Dec 2026, Dean's List & Semester Honors

Experience

Undergraduate Research Fellow | Manufacturing for Extremes Lab — Aug 2025 – Present
- Working with Dr. Lou to lead experiments to find the optimal strategy for fabricating materials
- Worked on creating a furnace to achieve extreme temperatures to anneal and recrystallize metals

Machine Shop Machinist |ME Project Machine Shop — Aug 2025 – Present
- Worked at the Machine Shop helping students learn how to use Machining Equipment
- Taught over **100+** students how to use the Mill and Lathe following safe procedures

WeeklyJoys Website Admin | Purdue Mechanical Engineering — May 2025 – Present
- Provided free practice exams to over **15000+** Engineering students at no cost

Product Development Intern | Karlyan — May 2025 – Aug 2025
- Designed an end-to-end mechanical heliostat to bring sunlight into areas without requiring electricity
- Performed cost-benefit analysis to bring product to rural areas while also decreasing overall energy consumption by **37%** in urban areas

Aerodynamics Sub Team Member | Formula SAE — Aug 2024 – Present
- Utilized Computational Fluid Dynamics **(CFD)** to design and optimize a high-performance rear wing with a CL of **-2.7**
- Conducted virtual tests through to determine downforce and reduce radiator drag on the **undertray (UT)**

Engineering Intern | ECSite — Jun 2024 – Aug 2024
- Designed a scalable automated UIPath program to manage **1700+** equipment processes
- Optimized overall program runtime by **20%** reducing overall runtime by days

President & Team Captain | Dougherty Valley High School Robotics Club — Feb 2021 – Jun 2023
- Spearheaded **16** officers, and **50+ people** managing a **501(c)(3)** founding two teams and raising **$30,000**
- Won Worlds Division Champion at the VEX Worlds Competition placing **top 15 internationally**

Projects

RC Airplane | Aerospace Engineering — Jun 2025 – Aug 2025
- Created a new fuselage and airfoil design performing CFD analysis to improve aerodynamics
- Performed controls analyses to ensure stable flight patterns

Adaptive Cruise Control | MATLAB — Jan 2024 – May 2024
- Led a team of 3 to analyze, interpret, and make conclusions about tire compounds using data science
- Developed an algorithm to smooth **200k+** noisy error filled data points
- Constructed an acceleration and time constant program to perform data analysis

Skills

Programming
- Java, C++, C, Python, MATLAB
- RPA Automation, UIPath
- HTML & CSS

Engineering
- NX, Fusion 360, SolidWorks
- CFD & FEA Analysis
- EE Design/Breadboarding
- Thermal/Fluids/Controls Design
- Machining Experience
- 3D Printing
